Internal readiness

Internal review status:	READY

Ready for internal handoff

Remaining actions

None recorded

Internal readiness acknowledgement

Current:	Yes
Recorded by:	Jordan Lee (demo lead)
Recorded at:	2026-11-07T10:41:07.315Z
Rationale:	Illustrative completed review of the supplied clean package for internal digitization handoff.
Manual coverage review:	Demo review covers all supplied PDF pages and DOCX paragraphs. DOCX pagination is not reconstructed. Deterministic checks do not establish legal correctness, authenticity or comprehensive defect detection; those limitations are retained for handoff.

Calculated readiness is for internal digitization work only. It is not formal customer/counsel sign-off or legal approval. Recorded identities are unauthenticated in this browser-local MVP.

Coverage & source documents

Coverage:	incomplete; 0 gaps
Checks applied:	Explicit section, table and attachment references including annexure-scoped subsections; named attached/received documents and source-cited package requirements; explicit party roles with approved aliases; action-scoped funding and submission deadlines including day basis and time zones; self-reference numbering; known misspellings and approved vocabulary; explicit definition differences and duplicate entries; comparable minimums, currencies, percentages and evidence ages; configured labeled form fields and approved versions; contact details for matching purposes. Also checks drafting placeholders, calendar-date validity, repeated section numbers, written versus numeric amounts, unmeasured receipt/processing timing, selected governing-law and withdrawal differences, and explicit services-package operational terms. All rules are deterministic and syntax-limited.
Requires manual review:	Ambiguous signer roles, answer types and branches; other vague deadlines and affiliate scope; other contradictions, spelling and unrecognized wording; image text and complex reading order.

Subscription Agreement.pdf

Text coverage:	fully analyzed; 2/2 checked

Private Placement Memorandum.pdf

Text coverage:	fully analyzed; 1/1 checked

Investor Details.docx

Text coverage:	partially analyzed; 16/16 checked

DOCX citations are XML paragraphs/segments, not original pages; page layout is not reconstructed.

Unsupported checks & limitations

OCR is not performed

Requires manual review: Ambiguous signer roles, answer types and branches; other vague deadlines and affiliate scope; other contradictions, spelling and unrecognized wording; image text and complex reading order.

Image text, legal interpretation, authenticity and exhaustive completeness are unsupported

DOCX uses paragraphs; original pagination and some layout/footnotes may be unavailable
