WILLOW QUAY PRIVATE CREDIT FUND I, L.P.
Private Placement Memorandum
October 30, 2026

Investment overview

The Fund intends to originate privately negotiated loans to mid-market businesses. Capital is drawn as needed rather than paid in full upon execution of a subscription. Interests are illiquid, performance is uncertain and capital may be lost. These descriptions are fictional investment terms for testing.

Subscription terms

The minimum initial investment is USD 250,000 for Class A at the December 15, 2026 closing. Existing Investors may make an additional contribution of at least USD 25,000. The General Partner may reject an application. No applicant-specific waiver is granted by this memorandum.

Operational process

The applicant completes the subscription agreement and Schedule A supplied with it. The administrator reviews legal identity and signing authority before requesting funding. Acceptance, capital-call issuance and receipt of payment are separate records. A change of contact address does not change the applicant's legal name.

Risk and reporting

The Fund may hold concentrated positions and may experience delayed repayments. Valuations may depend on estimates. Quarterly statements will normally be available through the portal. A description of future reporting does not require the applicant to upload those future reports with its subscription.
